

Why choose E & E Tech for managed IT services and cyber security?

Reputable: Since 2013, E & E Tech has provided quality technology services to a multitude of businesses

Quick Response Time: We respond to service tickets in 60 minutes or less guaranteed.

Expert Team: All of our techs have at least 5 years of professional experience in tech support roles.

Business Minded: We design, evaluate and justify technology solutions from a thorough understanding of the business benefit for your company.

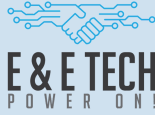

One Stop Shop: We handle all aspects of your IT infrastructure including hardware and software management, vendor relationships for your internet connectivity, website management, and maintenance renewals, and any other related technology needs.

Proactive: Our service philosophy is proactive, not reactive. With state-of-the-art network monitoring and management, we manage your network 24/7 to identify issues and address them BEFORE they become problems, rather than putting out fires.

Comprehensive Project Management: Our extensive experience managing all types of complex projects means we will handle every detail and coordinate all vendors so you can rest assured that your project will be completed on time and on budget.

How to pick a great Managed I.T. Services Provider

1.

Decide what you hope to gain from managed I.T. services, and discuss your goals with MSPs in your area.

2.

Come prepared with a list of questions to assess the quality of service you can expect from each MSP.

3.

Ask for a competitive quote or bid from each provider so you can make the right decision for your business.

Let's discuss your current technology systems!

If you're ready to start looking for a managed I.T. service provider, we can help by creating a comprehensive, custom technology solution for your business.
